

BRIDGE PERMIT (BRG) APPLICATION

Engineering Department

320 S. King St. | Phone : (307) 733-3317
P.O. Box 3594 | www.tetoncountywy.gov
Jackson, WY 83001

For Office Use Only

GEC _____ BDR _____ SWF _____ FPR _____ BRG _____

Pedestrian bridges do not require a bridge permit unless the project is located within a mapped floodplain.

Please submit BRG applications to the Teton County Engineering Department at 320 S. King St.

The application and site plans must be emailed to permits@tetoncountywy.gov before delivering to the Engineering Department.

Please use fillable PDF in lieu of handwritten application.

SITE LOCATION: *(List all properties effected, if not enough room please attach list.)*

Physical Address: _____

Lot, Subdivision: _____ PIDN: _____

OWNER: *A copy of the Warranty Deed(s) or Contract of Sale must accompany this application.*

Name: _____ Phone: _____
(must agree with Deed)

Mailing Address: _____ City, State: _____

Email: _____ ZIP: _____

Additional Property Owners*: _____

**Attach additional forms if there are multiple landowners. This application will not be approved without the signature of all landowners (or their authorized agents).*

APPLICANT/AGENT: *If the applicant is other than owner, a **notarized** Teton County Planning & Development [Letter of Authorization](#) must accompany this application. Only the owner or his/her authorized agent may sign the application, correction list or permit.*

Name: _____ Phone: _____

Mailing Address: _____ City, State: _____

Email: _____ ZIP: _____

DESIGN ENGINEER: *Must be a licensed Professional Engineer.*

Name: _____ License #: _____

Email: _____ Phone: _____

BRIEF PROJECT DESCRIPTION:

Brief Description: _____

STRUCTURE INFORMATION:

Overall Structure Length (FT): _____ Maximum Span Length (FT): _____

Clear Width of Structure (FT): _____ (Minimum Width 14 FT)

Design Load (Tons): _____ (Minimum vehicular design load AASHTO HL-93)

Material Composition (concrete, timber, etc.):

Abutments: _____ Piers: _____ Superstructure: _____

Bridge Rail Type: _____

*Bridge rail is required for bridges open to the public; other bridges subject to the discretion of the Engineer of Record.

Utilities (what utilities, if any, are attached to the bridge or buried in the embankment?):

Estimated Cost of Construction: _____

*A plaque displaying the bridge weight limits shall be placed at the bridge entrance.

FLOODPLAIN INFORMATION: (See County Floodplain Management Resolution and Flood Insurance Rate Maps (FIRMS), <http://www.tetonwyo.org/538/FEMA-Flood-Insurance-Rate-Maps>. Also see the County GIS Map Server Website <https://maps.greenwoodmap.com/tetonwy/mapserver/> Click on the Map Layer Icon to select FEMA Flood Hazard Zones.)

Is the structure located in a *Special Flood Hazard Area? Yes No

If so, provide:

Flood Zone Designation: _____

Flood Insurance Rate Map (FIRM) Panel No: _____ Map Date: _____

Base Flood Elevation: _____ Elevation of the lowest level of the structure: _____ (i.e. abutments, stringers, etc.)

Lowest elevation of electrical: _____ Lowest elevation of other service facilities: _____

*Development in a Special Flood Hazard Area requires both a Design and As-Built Elevation Certificate and may require a Bridge Under Construction Elevation Certificate. The Elevation Certificates must be executed by a Wyoming licensed Land Surveyor or Professional Engineer.

WETLANDS: (Identify wetlands and their setbacks on a site plan.)

Are there wetlands located on or adjacent to the site of the proposed structure or access roadway? Yes No

WILDLAND-URBAN INTERFACE: (A Wildland-Urban Interface Area is defined as a geographical area where structures and other human development meets or intermingles with Wildland or vegetative fuels. See the County GIS Map Server Website: <https://maps.greenwoodmap.com/tetonwy/mapserver/> Click on the Map Layer icon to select the Wildland-Urban Interface Area Layer.

Is the property located in an Urban-Wild Land Interface? Yes* No

*If yes, a Wildland Assessment is required prior to submitting the permit application. Contact the Fire Marshall at 307-733-4732 to arrange for a meeting.

NOTICE TO DEVELOPERS AND BUILDERS:

The U.S. Army Corps of Engineers regulates the placement of dredged and fill material into wetlands and other waters of the United States as authorized primarily by Section 404 of the Clean Water Act (33 U.S.C. 1344). The term “waters of the United States” has been broadly defined as all waters that were, are, or could be used in interstate commerce and includes lakes, rivers, streams (including ephemeral streams), mud flats, wetlands, sloughs, playa lakes, and ponds. Wetlands are defined as areas that are inundated or saturated by surface or ground water at a frequency and duration sufficient to support, and under normal circumstances do support, a prevalence of vegetation typically adapted for life in saturated soil conditions.

Although Teton County regulates wetlands, Teton County does not administer any aspect of the Section 404 program. It is the landowner’s responsibility to contact the Corps prior to placing any fill in waters of the U.S. The Section 404 program in Wyoming is administered by the Corps Wyoming Regulator Office located at 2232 Dell Range Boulevard, Suite 210, Cheyenne, Wyoming 82009. Information on Section 404 requirements can be obtained by contacting the Wyoming Regulatory Office at (307) 772-2300 or by visiting its web site at <https://www.nwo.usace.army.mil/Locations/District-Offices/Wyoming/>.

I certify that I have read and examined this application and know the same to be true and correct. All provisions of the laws and ordinances governing this work will be complied with whether specified herein or not. The granting of this permit does not give authority to violate or cancel the provisions of any state or local law regulating grading or the performance thereof.
