

# SERVSAFE MANAGER COURSE

## Offered by Teton County Environmental Health

This full day course includes classroom instruction, book and ServSafe Food Protection Manager Exam. It's a fast-paced class, geared for those who have prior food safety training and knowledge and those who will be in supervisory or management positions in a food establishment. **REVIEW the book beforehand!!** Not all material will be covered in the class. Individuals can pick up the textbook at the Environmental Health office.

Passing the exam will fulfill the food safety education requirement for food service establishments.

### You must bring the following to class:

You MUST bring the book with answer key  
Pens, pencils, highlighters (sticky notes are also helpful)
